

Welcome to care as it should be.

MEEKER MEMORIAL  
CLINIC

Care as it should be.

# Specialists in your own back yard.

In 2006, we said, the “Doctor’s Back.” Since then, the addition of a full-time family physician, Dan Schminke, MD, has made it possible for Meeker Memorial Clinic to offer clinic services to everyone from expectant mothers to infants to the elderly. Growing up on a farm in rural Iowa, Dr. Schminke knows what it takes to have a successful clinic in a small town. With Dr. Schminke in town, you have easily accessible physician care. And, we keep growing, now offering physical therapy in the clinic and an ob/gyn specialist who sees patients at the clinic on a weekly basis.

You don’t have to drive far for things like prenatal care or specialized women’s services. Now, Dr. Scott Schultz, M.D., F.A.C.O.G., ob/gyn specialist is available for appointments on a weekly basis too. Dr. Schultz specializes in women’s services from prenatal care to women’s services in the clinic and surgery offered at Meeker Memorial Hospital. He too grew up on a family farm; in Foley, MN. So, now you have two physicians who know what it means to offer medical services to folks in a rural area.

Accreditation Council for Gynecologic Endoscopy

## We're Happy to Help.

It's our goal at Meeker Memorial Clinic (MMC) to provide high-quality health care services to our patients with state-of-the-art technology accompanied by outstanding, personal care. You won't have to drive far for things like prenatal care, your children's health care, acute care needs or regular medical follow-ups.

MMC offers a "family medicine model"; it's your medical home. It's an approach where the family physician treats acute and chronic illnesses, provides preventative care and health education for all ages to keep you healthy or connects you to resources and services for your continued care or specialized medical needs.

With MMC and a full-time doctor in town, area residents have access to family medicine in their own back yard.
